**SUNSHINE OF DOVER LOCKS.**  
The play put on at Music hall, Wednesday evening, was Sunshine of Dover Locks, and it brought out all the capabilities of the individual members of the stock company supporting Miss May Fiske. The star herself was excellently suited to her role. Charles Stevens took his turn as leading man and made a good impression. The audience was of good size and appeared very much pleased with the production.  
This (Thursday) evening the company's bill will be "49," a stirring western drama. The Saturday matinee will be a repetition of My Friend From India.

Friends Write Some Good Letters for  
the Contestants Also.

The home stretch is becoming lively. There is a new leader in the Herald's Pan-American contest today. Mr. Charles W. Hanscom, the popular member of the Knights of the Golden Eagle. His friends are showing up with good support. Two of these friends today have sent in votes enough to place him ahead of Mr. Leary, who goes to third place, because Mr. W. S. Fernald jumps up in the list to second place.

The conditions of the contest are as follows, a most liberal offer:  
The Portsmouth Herald agrees to send three residents of Portsmouth, who are either members of the Portsmouth fire department, a social club or

becoming one of the three leaders.

Mr. Fernald has also received a fat bunch of votes from a fireman.

The letters received with the votes show the interest that has been spoken of in the Herald from time to time. The picture today is of Mr. Hanscom, the new leader in the contest. Here are the letters received today:

PORTSMOUTH, May 16, 1901.

Editor of Voting Contest.—I guess it is about time for me to send in some of the votes I have been collecting for my brother knight, Mr. Charles W. Hanscom, who is one of the contestants for the Pan-American trip offered by the Herald. I sincerely hope that Brother Hanscom will be one of the successful three for the delightful visit you have planned for your readers. The votes that I send, 700, are not all of my own savings. Several have handed me votes, knowing that I was interested in the matter.  
Respectfully yours,  
ONE OF THE KNIGHTS.

PORTSMOUTH, May 16, 1901.

Editors of the Herald:—Here are 480 votes for Charlie Hanscom, the Jackson expressman, who is going to Buffalo this summer at the expense of the Herald. Please put these votes to his credit today. I have got some more for him promised.  
Yours truly,  
BUSINESS MAN

PORTSMOUTH, May 16, 1901.

To the Portsmouth Herald:—I have been thinking that a trip to Buffalo this summer for Will Fernald would be a most desirable vacation for him and if these votes will help to send him on the Herald outing, I shall be satisfied. I'll have made no mistake in counting them, there are 700 in the package. I would like to receive some of the votes I have been promised by his friends.  
Yours truly,  
WILL FERNALD

This is the way the list looks today, with the changes made. There are but two weeks more, after this week, of vote printing. The list today:  
Charles W. Hanscom, K. G. E. 2143

of some secret society, to the Pan-American exposition, pay all their expenses from the time they leave, until they return, including a week in Buffalo, with board and lodging and admission to the exposition daily.

This offer beats anything ever announced by any newspaper in New England, and is so far above the expense and interest of a trip to the national inauguration that it cannot be mentioned in the same class.

The contest will not be restricted to gentlemen but will be open to any lady who is a member of the various secret societies or auxiliary societies in Portsmouth.

The trip will include stop over privileges en route and returning and first class accommodations will be provided. In order that every detail of the grand tour may be properly looked after, the publishers will either send an agent in advance or with the party to make arrangements.

Everybody knows that the Pan-American exposition at Buffalo is to be grander and greater in every way than the World's fair and the visit will be the event of a lifetime.

The contest opened on Monday, March 4, when the first ballot appeared and which will appear daily until June 1, next, the last ballot to appear on the latter date, and the three persons having the greatest number of votes will have the grand privilege that has been offered. The last ballots must be received at the Herald office by 7.30 p. m., on Wednesday June 5, and the results of the contest will be announced at the earliest possible date.

This is an opportunity never before equalled in this section of the country and well worth the attention of every one eligible for such a trip. Vote early and vote often. Elect yourself.

### NO IMPROVEMENT.

Mrs. McKinley's Condition  
Causes Anxiety.

She Has Been Taking Only  
Liquid Nourishment.

The President And His Companions Have  
To Cancel Engagements.

SAN FRANCISCO, May 15.—At seven o'clock this evening, Mrs. McKinley was no better. She has taken nothing but liquid nourishment for several days and her extreme weakness is a cause for apprehension. The attending physicians are to hold another consultation about ten o'clock. Those members of the cabinet who had planned to attend the entertainment of the Bohemian club this evening sent their regrets. The president, late this afternoon, cancelled his engagement at the banquet of the Ohio Society of California, tomorrow night.

Cortelyou's Bulletin.

SAN FRANCISCO, May 15.—Secretary Cortelyou, at nine o'clock this evening, gave out the following bulletin to the Associated Press: "The physicians report an improvement in Mrs. McKinley's condition since noon today." Secretary Cortelyou stated that there would be no further bulletins during the night.

Cabinet Members Apprehensive.

SAN FRANCISCO, May 15, 10.00 P. M.—The cabinet members are apprehensive that Mrs. McKinley may not rally. The physicians have not been able to check the intestinal trouble and her enfeebled condition militates against her recovery. At the Scott residence, it is said that there is no immediate danger, although a change for the worse would not be unexpected. After the consultation of the physicians, Dr. Rixey and Dr. Hirschfelder remained in attendance upon Mrs. McKinley.

### SIXTY THOUSAND DOLLAR FIRE IN WOODSVILLE.

WOODSVILLE, N. H., May 15.—Property in the business section of Woodsville valued at about \$60,000 was destroyed by fire at an early hour this morning. Among the burned buildings are music hall and Odd Fellows' block. The fire started at 12:15 o'clock in the rear of the meat market of W. H. Mitchell and Co., from some cause at present unknown, and was spreading rapidly when discovered. The numerous wooden structures in the vicinity were quickly licked up, and for a time it looked as if most of the place would be wiped out. The fire was not under control until after two o'clock.

MORGAN'S MOVEMENTS.

LONDON, May 15.—J. Pierpont Morgan started for Paris this morning. At the firm's London house it is stated that no one there has any definite information as to Mr. Morgan's future movements, but it is expected that he will return to Aix-les-Bains.

WEATHER INDICATIONS.

WASHINGTON, May 15.—Forecast for New England: Fair Thursday and Friday, light to fresh south winds.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Hall's Family Pills are the best.

### SERIOUS STAGE.

The Strike In Albany Far  
From Settled.

Thousands Of Men, Women And  
Children Throng The Streets.

Large Number Of Troops Are Now  
Within The City Limits.

ALBANY, May 15.—So serious had the situation over the United Traction strike become this afternoon that Governor Odell postponed a continuance of his journey to state institutions and at half past five o'clock was at the executive mansion. Two thousand soldiers are within the city limits; more are coming; 2500 are ready to proceed to Troy at the word from the governor; the streets are thronged with excited men, women and children, and an otherwise quiet day terminated in bloodshed. A dramatic element was furnished by the sudden death of Attorney General Hoffman, this afternoon. Soldiers and mob clashed twice today, but fortunately there were no serious casualties. Sixteen men were injured this afternoon, many stunned, but only one had to be taken to a hospital. Protected by a large force of infantry, cavalry and police, a gang of wire repairers was sent out on the power wagon this afternoon and repaired the wires. The crowd was very demonstrative, but the presence of the troops seemed to hold it in check.

General Hoffman's Sudden Death

ALBANY, May 15.—Attorney General Edwin H. Hoffman of Elmira was standing in the Hotel Ten Eyck at five minutes after two o'clock this afternoon, talking with General Roe on the strike situation. He was taken with a slight faintness and went to his room. Mr. Reame, one of the clerks in the hotel, went up with him. Said the attorney general: "I feel a tightness about my heart. Please telephone for Dr. Davis." Mr. Rennie went to the room telephone, and the attorney general sank into a chair. Before Mr. Rennie could hang up the receiver, Mr. Hoffman was dead. Heart disease was the cause.

THE ALASKAN LAUNCHED.

SAN FRANCISCO, May 15.—The Alaskan, the largest merchant steamer ever built on the Pacific coast, has been successfully launched at the Union Iron works. The Alaskan belongs to the American-Hawaiian Steamship Co. She is of 12,000 tons gross burden and is intended to run between San Francisco, Hawaii and New York.

An old yacht may be the fleetest, after all.

Italians and small pox continue to pour into New York.

Chicago is trying to become a seaport. We may yet have a navy yard up in Epping, or a dry dock up in Great Bay.

The near approach of Memorial day service reminds one that as citizens we have a duty to perform to aid the veterans in observing the occasion.

The British continue to burn property in South Africa, although one is not impressed with the idea that they have anything "to burn" in the Transvaal, in the usual sense of the term.

Lord Salisbury, in speaking at a banquet in London, looked gloomily back over the South African war, said England was all right, spat out his hatred of the Irish and sat down. It was a great speech.

The American Federation of Musicians, (who ever heard of it before?) has met in Denver, Col., and passed resolutions for the suppression of ragtime. Of course every publisher of these pretty and lively little pieces of music will discontinue to print them.

### PICKUPS AT RANDOM.

There seems to be a strong suspicion among local yachtsmen that Sir Thomas Lipton's new challenger for the cup was purposely held back in her race with Shamrock I in which the latter finished many minutes ahead. What object there could be in this, I can't understand. It certainly would make no difference in the preparations on this side of the water. We intend to keep that cup and shall put forth our speediest yacht to do it, quite regardless of whether one Shamrock or the other wins in those trying-out brushes over in British waters.

A traveling man who was in town on Wednesday told me that he had recently been in Shirley, Maine, where the Allen family was foully murdered on Monday. "That stage road," he said, "where the crime was committed runs through nothing but wilderness. The Allen house stood almost a mile from the nearest dwelling, and it would have been a very easy matter for anybody with murderous intentions to get in their work there. It is one of the loneliest spots that I was ever in."

The boiler of the ferry boat Alice Howard has been repaired so thoroughly this time that it ought not to get out of order again very soon. Some of Chadwick's men worked on it Monday night until one or two o'clock in the morning and made a good job of it. This having to take the boat off the route at frequent intervals must be annoying to the owners, and they will undoubtedly be gratified if those latest repairs prove enduring.

About every day, some resident of the West end accosts me with approving comment of my protest against laying asphalt walks in Goodwin park. I am quite convinced by this time that such a step would be decidedly distasteful to a large majority of the people living in that section of the city. They feel that the present paths are good enough. Asphalt would be out of place.

I don't often pay much attention to parades—they're rather out of my line; but one that I saw a girl carrying on Congress street, Wednesday afternoon, was so chic that it forced itself upon my notice. It was of white silk, striped with narrow black velvet and lined with rose pink silk. Did you happen to see

It was quite out of the ordinary, through to Salisbury, where it will and I observed a lot of the women "rubbering" it.

Good reports come to us of the excellent standing of William W. Ferris with his fellow students and the faculty at the University of Vermont medical college. He is not only making rapid progress in his studies, but an additional honor has fallen to him in his appointment as chairman of chemistry of the Alpha Kappa Kappa society. All this is pleasing news to the young man's acquaintances in this city. They will also be glad to learn that he is to resume his position as clerk in Philbrick's pharmacy here during the summer months.

I was inclined to think that the agitation in favor of a new high school building had evaporated; but it appears that it is still a live issue. The joint committee on school houses and the special committee from the board of instruction appointed to report on the question have passed a unanimous vote recommending a new structure and will present to the board of mayor and aldermen this (Thursday) evening a resolution asking the city government to build one. Some decisive action by the board may be expected.

Have you noticed how fragrant the air is on these early mornings? But perhaps you don't get much outdoor air before seven or eight o'clock. That's too late to enjoy all the good there is in the month of May. Along about five o'clock the whole world seems one big covey, which delights your nostrils with a mingling of all the sweets of spring—violet, strawberry, apple bud, poplar and the others. The perfume that comes from the blossoming trees is almost intoxicating. The man whom duty call out just about sunrise at this season is lucky.

A police officer who has been in the department here for many years said to me, the other night: "I never knew a time when Portsmouth was so quiet at night and there was so little disturbance to trouble us, as at the present time. Water street, the North end, the Creek district, are all very peaceable now. I tell you, the conditions are vastly different from those which prevailed ten years or more ago. The brawls and scuffles of those burly-burly days are rare now. What has brought about this very acceptable change, I do not pretend to say."

A day or two ago, I heard a man who practices medicine in this city say to two or three youths: "It's a good thing for a man to get drunk once in a while. About once in five or six months is the proper ratio. After he gets over it, he feels a hundred per cent better than he did before. It renovates him better than all the spring bitters sold." What do you think of this for philosophy? Surely Plato becomes puny beside such an oracle. Still, I doubt not, there are silly skeptics who believe that a man feels just as well when he keeps sober all the time.

If you take a stroll out along the country roads now, you will be surprised to find so many plants already in blossom. The Mayflower is past its season, but the trillium, strawberry and dandelion blooms are getting numerous; the huckleberry is a bright bit of white against the green leaves; the shad bush is well ablaze, and the violets—white, blue, yellow,—are at their best.

In reply to a query about the proposed state highway from the Massachusetts line up through to the White mountains, former Governor Frank W. Hollins said to a Boston newspaper man, on Tuesday: "Of course, the completion of the road through the upper part of the state will not come right away. Nobody expects that. But it is something to work for, and the only way to get it is to make a beginning and keep working. We have made a start on another part of the same plan. That is, on the construction of a line road to follow the New Hampshire shore line. Not much is needed, for the strip of coast is only eighteen miles long; but we got an appropriation sufficient to start the work and a half-mile of road is now under construction just out of Portsmouth. We expect to get additional appropriations year by year, until the road has been completed

ladies especially. The streets are now quiet during the evening and there is more respect shown those who have occasion to be out. It is safe to say that the services of Mr. Gibson, or some other officer, for night duty, will not be dispensed with in the future.

At the annual convention of the Maine grand lodge, Knights of Pythias, the following officers were elected: Grand chancellor, Warren C. Philbrook, Waterville; vice chancellor, Clarence L. Bucknam, Yarmouth; prelate, J. Maurice Arnold, Augusta; keeper of records and seal, Wesley G. Smith, Old Orchard; master of exchequer, Edwin C. Milliken, Portland; master-at-arms, Frederick W. Cross, Kittery; inner guard, George W. Wescott, Bangor; outer guard, Andrew J. Roberts, Biddeford; representative, George M. Hanson, Calais.

Kittery Point loses one of its best citizens in the death of Capt. Samuel Tobey, which occurred at his home in the village on Wednesday, after an illness of but short duration. His death was very unexpected, as he was a man of usual good health and of powerful frame. The cause of death was acute Bright's disease. His age was seventy-two years. The death of his wife occurred during the past winter. Capt. Tobey was a man of intense Christian character and his life was consistent. He was a member of the Free Baptist church of Kittery Point and always took an active part in the work of the society. He was also a member of Rising Star commandery, U. O. G. C. He was respected by all. For many years he followed the sea and had charge of a number of vessels. He is survived by two sons, Rev. Manning P. Tobey of Water Village and Samuel Tobey, Jr., of Kittery Point.

### THEY WORSHIP FLOWERS.

In Japan the Study of Blooming Plants is a Life Work.

In Japan the arrangement of flowers is pursued as an art, being profoundly studied by men of rank—philosophers and priests, besides learned and literary men—and ladies of the aristocracy are allowed to practice the art as being likely to inspire such estimable virtues as gentleness, self denial, forgiveness of care and spirituality. A lifetime is indeed not too long for the Japanese, either man or woman, to devote to an understanding of the subtle meaning conveyed by flowers and the rigorous rules necessary to observe in producing with them the best artistic results.

In Japan the peony, although acknowledged to be the royal flower of China, is still the favorite of the upper classes. It is given on occasions of importance the position of honor on the dais in the principal recess—never is it placed in the center of the room nor on a shelf—and no other flower is allowed to come near its royal presence. Sometimes art dictates that two black twigs shall be grouped behind it, the thought being to enhance by contrast its abundant life and beauty. The lotus flower is also conceded to have royal national rank and is called the king of Indian flowers.

On festive days the Japanese never use it, as they associate it entirely with the spirit of the dead. The royal flower of Japan, of course, is the cherry blossom. The idea of floral rank is one to which the Japanese are very sensitive, and the established laws of precedence must be closely adhered to in the arrangement of their flowers. To an American it seems perhaps inexplicable that they should have placed the purple wistaria high above the white, which they mostly exclude from their compositions.

Flowers stand very high in rank, but are regarded as difficult of arrangement, and therefore the most arbitrary rules have been evolved for their composition. With a single large flower but 3 leaves are allowed, with 2 flowers 7 or 15 leaves are used, 3 flowers are given 13 leaves, and 5 flowers are furnished with 11 leaves.

So deftly are thoughts conveyed by the arrangement of flowers in Japan that often verbal messages are unnecessary. In November the coquette sends to her lover a leaf or branch of maple. "Like it," he translates, "her love has changed." On rare occasions those called "returning flowers," because they bloom twice a year, are used to subtly express the hope of a safe return. Before people that are ill blossoms of a sturdy, vigorous growth are placed that health and strength may be suggested. Only very gay flowers are strewn in profusion when supplicants are made for those in affliction. Prayers for rain are accompanied by large floral pieces so arranged as to point from right to left that the east wind bringing rain may be honored, and very naturally the reverse order, typifying the west wind, is employed when fair weather is desired.

Border of the thin mist, shades of the evening sun, waves in the morning sun, companion of the moon, snow on the leaf of the bamboo, moon's halo, spray capped wave, starlit night, beacon light, the sky at dawn, first snow, and golden dew are among the many imaginative and pretty names for Japanese bestow on their chrysanthemums, those flowers which appeal so strongly to their poetic natures. In the arrangement of them they are very careful and guard against seven faults—their stems must not be of the same length, a single blossom must not turn its back nor present its full face; three flowers must not appear to form a triangle; they must not be hidden by leaves, nor must they be arranged in the way of steps; an open, full blossom should never be placed at the base of the composition, and one odd one should not fall between two others alike in color.—Kansas City Star.

### BEAUTY SPOTS.

Plain cream, if it can be got pure, is an excellent skin food. It should be rubbed in gently at night after washing, letting the skin take up as much as it will, any then remaining unabsorbed being wiped off with a soft linen cloth.

Keep on the toilet shelf a little jar of the powdered bath brick used in the kitchen. It will be found the best sort of nail cleanser, a little sprinkled over the wet nailbrush removing all stains and paying the way for a quick and brilliant polish.

### MATRON AND MAID.

Mrs. John Elitch, Jr., of Denver courts fame through the possession of a unique pet, a live Australian kangaroo.

The mother of Governor Beckham of Kentucky was also the daughter of one governor, the sister of a second and the cousin of a third.

Ethel Costello of Kalamazoo eloped when she was 15, was a widow in six months and while still a young woman has inherited \$280,000 from the uncle of her dead husband.

Miss Josephine Bowen Holman, an Indianapolis girl, who is to marry Marconi, is herself an enthusiastic laboratory worker and has devoted a great deal of her attention in that line to electricity.

Mme. Bernhardt in a recent interview said: "An artist must in America remember that her audience will be peculiar because it contains so many intelligent women. They, and they alone, make possible any success on the stage of this country."

Mrs. Fairbanks, the wife of the senator from Indiana, is a great believer in the value of properly marking historical spots and as president general of the Daughters of the American Revolution will probably exercise her influence not a little in that direction.

Mrs. Washington A. Roebing, long a prominent member and vice president of Sorosis, has resigned, much to the regret of the club. The reason generally assigned for her resignation is her disappointment at failing to be made president of Sorosis at the last election.

Miss Callista Godard has given \$22,000 for a memorial hall to the village of Springfield, in Erie county, N. Y. It will be handed over to the village authorities with proper ceremonies, and it will be opened to school entertainments, church gatherings, scientific lectures, etc.

One of the greatest European heiresses is Miss Lucienne Premelle-Hirsch, granddaughter of the late Baron Hirsch, who is now 18 and will shortly make her debut in Brussels, where she has lived in strict retirement. By the will of the late baron most of his immense wealth goes to his grandchild.

French as She Is Spoken.  
"Entre nous," said Miss Ayres, who delights in talking dictionary French, "are you very fond of Mr. Goodhart?"  
"Well," replied May Brightly, "he's a very good friend of mine."  
"Ah, your bon ami?"  
"Better than that. He's my bonbon ami. He brings me a box every time he calls."—Catholic Standard and Times.

If Mr. Carnegie is really in earnest about desiring to die poor, he may be interested in knowing that the physician of the late Christopher Magee is now out of employment.—Washington Post.

How differently the Chinese do these things! In China when a doctor loses a patient he expects to lose his head too. In Yankee land when a doctor loses a patient he is quite likely to demand the big end of the estate.—Cleveland Plain Dealer.

**Appeals For Mercy and Propose a Plan to Raise Money.**  
Peking, May 15.—The answer of Chi-  
na to the statement of the ministers of  
the foreign powers as to the losses sus-  
tained by nations and individuals in  
China has been received. The answer  
commences with an appeal to mercy,  
saying that the country is impoverished.  
The answer explains that the ut-  
most China can offer is 15,000,000 taels  
annually for the next 30 years.  
This amount will be derived as fol-  
lows: From salt, 10,000,000 taels; from  
the liquor tax, 2,000,000 taels, and from  
native customs, 3,000,000. The com-  
munications further asserts that were this  
done it would leave the country unable  
to meet the expenses of government  
without assistance. It is therefore re-  
quested that the foreign customs be in-  
creased one-third, the receipts there-  
from to be given to China for the pur-  
pose of government. The ministers re-  
fuse to discuss this answer until it has  
been considered by them in meeting.

**W. K. Vanderbilt's Narrow Escape.**  
New York, May 15.—W. K. Vander-  
bilt, Mrs. Oliver Harriman, Jr., and  
another lady narrowly escaped injury  
at White Plains yesterday. Mrs. Har-  
riman and her friend drove to the  
depot to meet Mr. Vanderbilt, who  
came from New York. He was to be  
a guest at the Harriman home. The  
trap was drawn by a pair of spirited  
cobs. After Mr. Vanderbilt was seated  
the party started along Railroad  
avenue, and the cobs shied and be-  
came excited. Before they could be  
hauled down they plunged into a sub-  
way excavation. The vehicle had a  
very narrow escape from upsetting be-  
fore the excited animals were control-  
led by persons who ran to them. No  
one was hurt. The cobs were got out  
safely after a difficult job.

**Train Wrecked in Tunnel.**  
Roanoke, Va., May 15.—News has  
reached here of an accident near  
Shawsville, on the line of the Norfolk  
and Western railroad, about 20 miles  
west of Roanoke, about 6 o'clock last  
evening. As a result of it four men are  
dead, one cannot live and two more are  
said to be buried under a mass of stone  
and dirt. The accident occurred in the  
tunnel one mile east of Shawsville, in  
which a large force of men was at  
work. Just how it occurred is not  
known, it simply being stated that a  
cave in took place, with the above re-  
sult. All of the men killed and injured  
were colored laborers. There is a track  
around the tunnel, and trains will not  
be delayed.

**Heathcotes Declared Insane.**  
New York, May 15.—After an ex-  
haustive examination by the alienists  
Drs. Fitch and Wildman of Mrs. Edith  
Heathcote and her 16-year-old daughter  
Lillian, who were committed to  
Bellevue last Saturday by Magistrate  
Brann, the mother and daughter have  
been officially declared insane. The cer-  
tificate of the physicians was sent down  
to the supreme court for approval.  
The mother and the daughter believe  
that Dr. Kennedy is being prosecuted  
for the murder of Dolly Reynolds on  
manufactured evidence and have made  
life miserable for the district attorney  
and all concerned in the case.

**Trolley Accident Injures Twenty.**  
Haverhill, Mass., May 15.—The de-  
railment of an electric car of the Haver-  
hill, Merrimack and Amesbury Street  
railway last night brought injuries to 20  
passengers. The car left here for Mer-  
rimack and had reached Reynolds Hills,  
when it left the rails, ran 50 feet on the  
ground, then swung diagonally across  
the track and plunged over the em-  
bankment. The car did not overturn,  
but the journey off the iron threw  
about the passengers in violent fashion.  
The cause of the derailment probably  
was spreading rails. The motorman  
claims that the car was going at a  
moderate rate of speed.

**Boers Losing Heart.**  
Pretoria, May 15.—The number of  
burghers who are surrendering is rap-  
idly increasing. These men state that  
the Boers are worn out by the incessant  
movements of the British troops. The  
majority of the burghers who have  
surrendered are without horses, and  
all are half starved and poorly clad.  
The local Dutch think the advent of  
winter will witness a general surren-  
der of the fighting burghers. Already  
the nights are bitter cold, and the  
veldt is dry. Commandant Beyer's  
force of about 400 men is reported to  
be near Nylstroom, north of Pretoria.

**Work of Relief in Jacksonville.**  
Jacksonville, Fla., May 15.—The  
work of the relief association goes on  
smoothly. An address was issued to  
the people of Jacksonville calling on  
them to work with unity in the restora-  
tion of the city, stating that the de-  
mands on the relief association's re-  
sources will be heavy and must be hus-  
banded and urging unemployed work-  
men to apply for employment first  
with private parties and, if unsuccessful,  
then to the labor bureau of the as-  
sociation.

**Mrs. Haines Indicted.**  
Mount Holly, N. J., May 15.—The  
grand jury has indicted Mrs. Mabel  
Haines of Delaware for homicide, which  
in this state covers all degrees of mur-  
der. Mrs. Haines is accused of having  
beaten and poisoned to death her step-  
daughter Gwendoline, 3 years old, the  
daughter of her husband by a previous  
marriage.

**Chaffee to Sail May 25.**  
Washington, May 15.—Secretary  
Root received a cable message from  
General Chaffee saying that he, with  
the troops in China, expected to sail  
from Taku about May 25.  
**Weather Forecast.**  
Fair; light southerly winds, be-  
coming variable.

**The Twenty-third Regiment and Tenth Battalion Called.**  
**GENERAL ROE ON THE SCENE.**  
**Rioting and Destruction of Property.**  
Several Hurt, One Probably Fatal—Police Powerless to Cope With the Striking Street Car Employees.  
Albany, May 15.—After a futile at-  
tempt to run cars on its lines, result-  
ing in serious rioting, in which one im-  
ported motorman was seriously injured and  
one car was wrecked, the Albany Traction  
company late yesterday afternoon  
appealed to Sheriff McCrory of Albany  
county for state troops to protect its  
property from violence. As a result of  
this appeal General Robert Shaw Ol-  
iver, commander of the Third brigade,  
ordered a part of the troops of his com-  
mand to assemble in the armory at 10  
o'clock last night for duty in connection  
with the strike. Later state military  
headquarters ordered the Twenty-third  
regiment of Brooklyn to report here  
ready for duty today.  
The troops ordered out by General  
Oliver last night consist of the Tenth  
battalion of Albany, comprising four  
companies of the national guard of in-  
fantry, and the Third signal corps,  
mounted.  
**Other Troops Warned.**  
General Oliver said that he would  
warn the rest of his brigade to be in  
readiness for a call. The troops that  
General Oliver has at his command in-  
clude about 2,000 men in the following  
organizations:  
The Second regiment, consisting of  
the Sixth, Seventh, Ninth, Twelfth,  
Eighteenth, Twenty-first, Twenty-second,  
Thirty-first, Thirty-second, Thirty-third,  
Thirty-fourth and Forty-third  
separate companies; the Tenth battalion  
of four companies, A, B, C and D; the  
Eleventh battalion of the Fourth,  
Eleventh, Fifteenth and Twenty-third  
separate companies; the Twelfth bat-  
talion of the Fifth, Tenth, Fourteenth,  
Sixteenth and Twenty-fourth separate  
companies; the Sixteenth battalion of  
the Twenty-seventh, Twenty-eighth,  
Thirty-ninth and Fortieth separate  
companies, and the Seventeenth bat-  
talion of the Third, Twentieth, Thirty-  
third and Forty-fourth separate com-  
panies. Major General Roe is here and  
will attend to the troops in person.  
Last night there was further rioting  
when a big mob of strikers and their  
sympathizers charged a party of non-  
union men sent out to repair wires.  
Stones were hurled. Mounted police  
did their best to protect the men, but  
two were hurt. Several in the mob  
were severely clubbed, and three ar-  
rests were made. The attempt to re-  
pair the wires had to be abandoned.

**RIOTING AT TROY.**  
**Car Tracks Turned Up and Thrown Into River.**  
Troy, May 15.—The street car tracks  
on a portion of the United Traction  
company's line in this city have been  
turned up and thrown into the river.  
Late yesterday afternoon three com-  
panies of militia received orders to  
report for guard duty. In accordance  
with the orders issued by Colonel  
Lloyd to the commanding officers one  
sergeant, one corporal and 16 privates  
each from the Sixth, Twelfth and  
Twenty-first companies were assem-  
bled at an early hour and were held in  
readiness until 10:30 o'clock in order  
that the guardsmen, in case there  
should be any renewed violence that  
might excite a call for the Second,  
could notify their comrades without de-  
lay. A considerable quantity of ammu-  
nition is stored in the armory, and this  
was another reason why the men were  
hastily called together.  
**Twenty-third Starts For Albany.**  
New York, May 15.—Trolley cars  
brought more than 300 officers and men  
of the Twenty-third regiment across  
the Brooklyn bridge before 1 o'clock  
this morning. The regiment disembarked  
at the Park row terminal and was  
loaded on cars of a special train wait-  
ing at the City Hall station. The trip to  
the Grand Central station was made in ex-  
press time, the third track being used,  
and when the regiment had arrived at  
Forty-second street no time was lost in  
boarding a special train on the New  
York Central, which had been waiting  
with steam up since midnight.

**Check Indorsed by John Doe.**  
New York, May 15.—Justice Jerome  
has in his possession a check indorsed  
by one of the men who are supposed to  
be responsible for alleged protected  
gambling in this city. The justice, de-  
scribing the nature of some of the evi-  
dence found in the recent important  
raid on a place on East Fourteenth  
street, declared that the committee of  
fifteen had found in this gambling  
house the memorandum of a large pay-  
ment of money to a man prominent in  
this city and that this memorandum  
consisted of the check mentioned,  
which had been indorsed at the time of

**Phillips Keeps Corn Down.**  
Chicago, May 15.—"I believe my  
corn would have been bid to 60 cents  
by the shorts this morning but for the  
action of Phillips," said a corn broker  
yesterday. Shorts began bidding for  
the May corn at 52 cents, and on the  
way up to 53½ cents Phillips sold scat-  
tering lots, perhaps 200,000 bushels in  
all. This did not stop the bidding, so  
Phillips did some bidding himself. He  
bought a small lot at 54 cents, then bid  
54½ cents for 50,000 bushels. Of course  
there was no one to sell it. The shorts  
gave up the chase, and the price held  
at 54 cents up to the close. Phillips ex-  
pects it to sell at 60 cents.

**Quay Says His Race Is Run.**  
Philadelphia, May 15.—At a dinner  
and reception given in Senator Quay's  
home last night by the State League of  
Republican Clubs the veteran leader  
announced his intention of retiring  
from politics at the close of his present  
term. Senator Quay said: "My politi-  
cal race is run. It is not to be under-  
stood that God's sword is drawn im-  
mediately against my life or that my  
seat in the senate is to be prematurely  
vacated, but that with the subscrip-  
tion of my official oath on the 18th of  
January my connection with the sen-  
ate and responsibilities of active  
politics ceased, except so far as I may  
be committed to certain measures  
pending in the present legislature. I  
will never again be a candidate for or  
accept any official position. I have  
many friends to remember. I have no  
enemies to punish. In this regard I  
put aside the past."

amounted to \$76,750,982, of which \$36,

domestic merchandise during April ag-  
gregated \$129,789,590, an increase of  
\$2,000,000. For the last ten months the  
total imports of merchandise were \$41,  
049,350 less than for the corresponding  
period last year. During the same  
months the exports of domestic mer-  
chandise exceeded those for the corre-  
sponding period in 1900 by \$85,566,258.

**Arrivals From the Orient.**  
Victoria, B. C., May 15.—Among the  
prominent arrivals from the orient on  
the steamship Empress of India were  
Sir Walter Hillyer, diplomatic adviser  
to the British forces in China; his ex-  
cellency Min Hui Chu, Korean minister  
to Washington; Baron von Perlbund of  
Count von Waldsee's staff; Prince  
Ibrahim Hassan, a cousin of the Khed-  
ive of Egypt; Captain Marry, Lieuten-

and when they were completed the  
troops would be withdrawn and the  
Chinese court would return to Peking.

scription. He refuses to talk, and the  
police think they have the right man.  
He was locked up.

**Northern Pacific Fight Has Passed Acute Stage.**  
**A DISPATCH FROM MR. MORGAN.**  
**Ze Says Situation in London Shows a Decided Improvement—The Northern Will Probably Bring About an Amicable Settlement.**  
New York, May 15.—The Journal of Commerce says:  
"J. Pierpont Morgan called his New York office from London last evening, the situation there showed decided improvement and that he looked for still further improvement.  
"There were indications yesterday, however, of a more friendly feeling between the conflicting interests in the Northern Pacific contest. Both sides took pains to deny that any personal feeling had arisen in the controversy, and certainly no spirit of retaliation, so it was said, at least would be shown by either party. The head of a financial institution in very close touch with both the Morgan interests, the Rockefeller and Kuhn, Loeb & Co. made the following significant statement: 'There has been no quarrel. The entire matter has simply been a business operation. Whatever is wise for business interests will be done. This of course means co-operation.'  
"The same feeling seems likewise to be held by the more distinctly Harriman interests. One of Mr. Harriman's associates in explaining the situation said:  
"The trouble is not the result of any disagreement between Morgan interests or Kuhn, Loeb & Co. and their friends."  
**Statement of Harriman Interests.**  
"So far as the control of Northern Pacific stock is concerned the following may be given on the authority of certain Harriman interests:  
"Kuhn, Loeb & Co. own a majority of the stock, as shown by actual certificates, including common and preferred. Morgan & Co. own a majority of the preferred stock of Northern Pacific to be retired next January. Should this be done the majority of Kuhn, Loeb & Co. would be wiped out and Morgan & Co. would be in control. The annual election of Northern Pacific occurs in October. Should it be held at that time and should present ownership be unchanged the Kuhn, Loeb & Co. interest would win, but should as the result of legal action the election be deferred until after Jan. 1 Morgan & Co. would win."

**Paying Teller Shot by Bandits.**  
New Orleans, May 15.—Philip Schumacher, paying teller of the Teutonia bank, a state institution, was shot in the calf of the leg while at work in the bank counting the cash previous to a meeting of the finance committee last evening about 6:30 o'clock. When assistance came, he was lying on the floor, badly bruised, a pistol near him and money scattered on the floor. He said he was attacked and fired on by two men and that he had returned the fire. Although the bank is in the heart of the city the men could have entered and escaped by the rear. The police have been unable to find any trace of the thieves, and the bank officers are counting the cash to ascertain if any is missing.

**Columbia Stops Hazing.**  
New York, May 15.—As a result of the recent order of President Seth Low that hazing must cease resolutions have been passed by all the classes of Columbia university abolishing forever the time honored practice, so far as the college was concerned. There was vigorous opposition in some quarters to this action, but the presentation of the resolutions to President Low for his approval, it is hoped, will mitigate the punishment of the six students under suspension for participation in a recent fracas between the sophomores and freshmen on the college lawn. The students are to receive final sentences from the president today.

The concerns to be gathered into the new combine are the Colorado Fuel and Iron company, the Pennsylvania Steel company and the Tennessee Coal and Iron company. The aggregate capital of these concerns, occupying diverse and noncom-  
petitive fields, is \$135,000,000.

**Mrs. Nation Found Guilty.**  
Topeka, May 15.—The jury in the case of Mrs. Carrie Nation, charged with "John" smashing, has returned a verdict of guilty. Sentence will be pronounced today. It is the general impression that she will be released on the payment of a fine and costs. The defense made no effort to deny the truth of the accusation, but tried to prove that Mrs. Nation was insane at the time of the riot. The verdict is a general surprise, as it was expected that the jury would agree to bring in an acquittal. Mrs. Nation was convicted for breaking into Ed Murphy's saloon one Sunday in February.

**Arrested For an Ancient Crime.**  
Buffalo, May 15.—Detectives Melhe and Sienar of Rochester, with the assistance of the local bureau, located and arrested Bartholomew Powers, alias Austin Parker, last night. **His Younger Brother Was to Be Declared Ruler of Turkey.**  
Vienna, May 15.—The newspapers here print a sensational story of a plot to kidnap the sultan of Turkey. The papers say it was the intention of the conspirators to arrange for a declaration that his majesty was insane and then to keep him secretly confined and to proclaim his younger brother, Mohammed Reshad, sultan in his stead.  
Several exalted officers and state officials are said to have been implicated in the plot. It is stated that they were co-operating with the Young Turk party.  
The plot was revealed by the sultan's secretary, Izzet Bey, who is known as his majesty's favorite. According to one version of the story Izzet Bey conspired with the plotters, but subsequently relented and betrayed them. Another version is to the effect that Izzet Bey suspected the plot and warned himself into the confidence of the conspirators only to reveal their machinations.  
The sultan is represented as regarding Izzet as his savior and as richly rewarding him.  
The share of Mohammed Reshad, who is the heir apparent, is also differently described. It is said by some papers that he headed the conspiracy, while others declare that he was unaware of it. At any rate, he is now confined in his own palace, where he is closely guarded.

A majority of the revolutionists are said to have escaped, but it is stated that 200 have been arrested and will be executed. It is said that among those who escaped is Osman Pasha, a son of the general of that name.  
It is declared that the recent seizure of foreign mails in Constantinople was prompted by knowledge of this or a similar move on the part of Young Turks who were in communication with the offices of the party in Paris and Geneva.

**Entry Marked by Much Noise.**  
Then the whistles of the factories and machine shops of the neighborhood were turned loose, bells of the yard engines were furiously rung; thousands of voices joined in the noisy welcome to the city's guests, and a general movement among the thickly packed humanity in the streets added to the incident. A few minutes after the train arrived the procession was formed, and the march up Third street was begun. In the rear of the platoon of mounted police and a battalion of patrolmen came Grand Marshal Wardfield and his aids. Behind them were swung into line Troop A, the special escort of the president, closely followed by the veteran guard of the Grand Army of the Republic, who acted as a guard of honor for the battalions of the president's regiment.

In the president's carriage were Mayor Phelan and Irving M. Scott, chairman of the citizens' executive committee.  
Everywhere the president was greeted with unbounded enthusiasm, and his smiling face indicated his delight at the tribute of the cheering thousands. He constantly bowed to right and left, and his hat was ever in his hand, being waved in recognition of the greetings of the men, women and children of San Francisco.

After the review the president returned to the Scott home. In the evening he attended a brilliant reception at the ferry building. He was escorted to the grand stand erected in the nave. Mayor Phelan delivered a brief address of welcome, and President McKinley responded in a happy speech.  
The people then passed before Mr. McKinley. All carried American flags, which they waved, lending much color to the scene. It is estimated that at least 30,000 persons filed into the building and passed before the president.

Secretary Cortelyou issued the following bulletin yesterday:  
"The doctors, after their morning consultation, find that Mrs. McKinley has lost nothing, but has gained a little since last night's rest."  
Mr. Cortelyou stated later that the president had not yet decided as to his plans for the next two days. Everything depended upon Mrs. McKinley's condition.

The president will not decide until the latter part of the week whether or not he will abandon the trip to the northwest. Among the members of the party today the prevailing impression seemed to be that Mrs. McKinley's condition would necessitate the complete abandonment of the trip beyond San Francisco.

**McKinley Gets Another Degree.**  
Berkeley, Cal., May 15.—The degree of doctor of laws has been conferred upon William McKinley by the University of California. Only two years before the founding of the university in 1868 has this degree been bestowed by the institution.
